The best product to make soft bite splints and night guard

IMPAK is a revolutionary new "soft PMMA" material with memory, which is used to manufacture occlusal splints with thermomemory effect. The IMPAK material is characterized by its thermoplastic flexibility resulting in highly precise adaption to the tooth situation. Moreover, IMPAK offers stress-free wearing comfort for the bruxing patients. The splints or night guards fabricated from the IMPAK discs could provide optimum patient comfort and are free from MMA&BPA.

The disc sizes can fit CAD/CAM requirements and simplify the manufacturing workflow. The CAD/CAM technology also ensures a safe process, since the hand mixing errors are eliminated. Besides, the industrial production process of IMPAK discs provides an exceptional material homogeneity and thereby an outstanding long-term stability.

NOBILDENT Prime DXL

NOBILDENT Prime DXL, with its universal design, high molecular weight and outstanding solvent resistance, is a global asset for customers, catering to diverse facial characteristics worldwide.

- It offers 29 moulds, classic 16 shades plus two bleached colors A0 and A00
- Retail Units: card
- Anterior Package: 6 pcs/card; Posterior Package: 8 pcs/card
- Same mould and shade on each card

Part Number	Type	Specification	Retail Price
NAUShadeMould	Upper Anterior	One card, 6*1	\$3.98
NALShadeMould	Lower Anterior	One card, 6*1	\$3.98
NPUShadeMould	Upper Posterior	One card, 8*1	\$3.98
NPLShadeMould	Lower Posterior	One card, 8*1	\$3.98

NOBILDENT Select XL

NOBILDENT Select XL is a classic teeth line made from PMMA resin with natural aesthetics and excellent shade stability.

- 33 moulds and popular shades A1, A2, A3, A3.5, B1, B2, C2 and D2 now available
- Retail Units: box
- Anterior Package: 16 cards/box; Posterior Package: 12 cards/box
- Same mould and shade in each box

Part Number	Type	Specification	Retail Price
NSLAUShadeMould	Upper Anterior	One Box with 16 cards, 6*16	\$31.68
NSLALShadeMould	Lower Anterior	One Box with 16 cards, 6*16	\$31.68
